OPERA HOUSE .- Last night, the first appearance of Miss Sallie St. Clair and Mr. Charles Barras, was a grand comedy night at the Opera House, and was honored by a crowded and delighted audience. Everybody was gratified to see Mr. Barras in his favorite character of Aminidab Sleek in the "Serious Family," as well as Miss St. Clair in that play, and in "Our Country Cousin," where as Margery she keeps the audience in a continued merry mood. In both plays, the main characters were generally well supported, particularly by Mrs. Bradshaw in the "Serious Family," and by Mr. Lewis, who, as Cousin Joe, created abundant merriment.

To-night will be presented the grand military drama of the Siege of Lucknow. This is a play well suited to the times, owing to the military movements, the grand scenes and spectacles presented. It is, besides, exciting and sensational. Miss St. Clair will personate the principal character, and in this, as in the comic, she excels. The laughable farce of the Smiths and Browns concludes the even-

Peter Martin's Hot Air Furnaces

Commendations from Mr. E. D. Kings ley, Superintendent of the Coumbus Public Schools, and from H. H. Barney, Superintendent of the Circleville Union School. COLUMBUS, February 15th, 1865.

To whom this may Concern: Peter Martin, of Cincinnati, has placed HIS PATENT IMPROVED HOT AIR FURNACES in our High School and District School No. . The Furnaces in District No. 5 have been in use two years; those in the High School during this winter. So far they have given entire satisfaction. For efficiency in warming, quality of heat, econo-

any who may desire an excellent mode of E. D. KINGSLEY, heating. Supt. of Public Schools of Columbus.

CIRCLEVILLE, Feb. 16th, 1865. The Warm Air Furnace invented and manufactured by Mr. Peter Martin, of Cinclinati, was put into the Union school building of this city in November last, and thus far it has given entire satisfaction. It mportant particulars: It has, comparatively, a greater heating surface; produces a larger volume of heat with a given amount of fuel; the condition of the air in respect to temperature, moisture and purity, is superior; the admission of cold air, the supply of warm air for the several rooms, and the fires, are more easily regulated.

To avoid scorehing and decomposing the air, as is done, to some extent, by other hotair furnaces, and to secure to each room an abundant supply of pure, fresh air, warmed to a pleasant temperature, as well as to protect the wrought-iron air-flues from fresh air as to prevent the wrought-iron flues from being overheated, and thus secure other furnaces had been previously used in our school edifice without satisfactory results, and because, after a careful examination of a large number of furnaces and other public edifices, not only in Westernbut also in Eastern cities, Mr. Martin's was believed to be decidedly the best. H. H. BARNEY, Supt. Circleville Union School.

Rebel Accounts from Sherman. New York, March 6.—The Raleigh (N. J.) Journal of the 2d says: As the train left Wilmington our Whitworth battery, plant-ed at the head of the market, was firing upon the enemy, who had appeared upon the western side of Cape Fear river. Their main advance was then checked at Alligator creek. Some few skirmishers pushed

forward, but were driven off.

It is believed that Hapgood's brigade, with the exception of the 7th battalion, has been captured. Some accidental cases may have escaped. They probably have. They were on the west side of the Cape Fear, the only troops on that side.

The Richmond Whig of the 3d says: The

Raleigh Conservative alludes to Sherman's operations and indulges the hope that if our plans are not thwarted, our able Generals and brave troops in that quarter will be able to bag him or send him home to the rear. If the report brought us by telegraph that the small force left by him at Columbia has been expelled by true the reals. has been expelled be true, then the repulse in front, should be suffer such, would probably render his affairs desperate in the extreme. But we will not speculate further in regard to matters which must cease to be matters for mere speculation soon.

The Richmond Dispatch of the 3d says: A gentleman from Fayetteville 1st inst., says at that time no Yankees had advanced in that direction from Wilmington. We have nothing from Sherman. He is supposed to be still in the mud of South Carolina.

Richmond Papers Confident of Victory-A Cavalry Dash into Greenville, N. C.

NEW YORK, March 6.—The Richmond Enquirer of the 3d has a long article showing that Sherman and Grant are to be beaten in letail, and then the independence of the Confederacy will be secured. Gov. Vance s now actively at work, it says, in rallying the people and organizing troops. It says Grant has stripped every section of the country, and in Western Virginia has not men enough to protect his Generals while sleeping.

Richmond papers are confident in the be lief that Grant will move the moment the ground will be sufficiently hard to permit him to do so. They say he has everything ready for an advance

Our forces are kept watching nightly for Semmes on the James, while the rebels are kept active watching for deserters from their lines.

PHILADELPHIA, March 6.-The transport Massachusetts has arrived, and reports our surpasses other furnaces in the following naval forces captured Fort White, a splendid work mounting seventeen heavy guns, just below Georgetown, S. C. Sailors and marines landed and took possession of Georgetown. Rebel cavalry charged on them in the streets, but were gallantly re-pulsed with a loss of several killed, wounded and prisoners. Our loss was one man. Admiral Dahlgren's flag-ship, the Harvest Moon, on her way down was sunk by a torpedo. All hands were saved excepting the ward-room steward.

Sherman's Movements-Exchange of Prisoners.

Washington, March 6 .- An extra Republican, just issued, says: Officers of Gen. Schofield's army who arrived here this morntect the wrought-iron air-flues from ing from Wilmington, state that when they the effects of the fire, it is essential that left that place on the 1st inst, deserters and the warm air-flues leading to the school refugees who came into our lines that day rooms, should be at least twelve reported that Sherman, by a flank move inches in diameter. This will insure the influx of such a large and rapid current of rection of Fayetteville, N. C., which is in a direct route to either Goldsboro or Raleigh. Richmond papers of the 28th of February flues from being overheated, and thus secure the durability of the furnace, and keep the warm air in a healthful condition. It is deemed proper to State in this connection, that our Board of Education was induced to order Mr. Martin's Furnace because the to order Mr. Martin's Furnace, because two North Carolina are to be exchanged, we learn, at Northeast bridge. We presume the exchange will be completed in a few

days.

The Raleigh Conservative closes an article on Sherman's movement as follows: other modes of warming school houses and But what will be the result of his present expedition time will only determine, and the people of the whole country await the news which will solve the problem with intense anxiety.

The Richmond Dispatch of the 3d says:

We have no official intelligence from the seab of war in the South lately, and for two days not even a rumor.

Hon. Roger A. Pryor, who has just returned from a Northern prison, was in the city yesterday. He is looking well.

The Richmond Examiner of the 3d says: There was a report yesterday of some firing on the lines around Richmond, but it is hardly to be presumed that they were sig-

nals of any important action. The Treatment of Prisoners. NEW YORK, March 6 .- The Tribune contains a long article on the exchange question, from one of its correspondents recently escaped from rebel prisons. It complains of the great leniency displayed toward rebel prisoners by our Government, while our own men are dying of starvation in the South. It instances the release of Pryor and his parole in Washington, and men-tions numerous occasions where prominent rebels were released without equivalents, while the same class of prisoners are treated by the rebels with the utmost severity. It charges the bad management of this matter upon Secretary Stanton, and demands that the country shall be honestly and fairly

A Plan to Capture Gen. Sheridan Nipped in the Bud. New York, March 6.—The Herald's Winchester correspondent of the 3d says of Sheridan's expedition up the Valley a few days ago: Three Winchester families by the names of Sherwood, Lee and Bunëll, were sent without our lines on the charge of disloyalty. It is alleged they conspired together to get up a social ball, to which Gen. Sheridan was to be an invited guest, and that during its progress a detachment of Mosby's guerrillas was to seize the General, take him captive, and convey him to Richmond, a la Kelly and Crook. The plan was frustrated, and the ladles who concocted it are now in full communion with those for whom they have exhibited such a warm

sympathy. LOUISVILLE, March 5.—The Nashville passenger train was detained four hours from injury by the freshet on Barren river. The river here is rising rapidly and a flood is apprehended. The bridge at Anticoh Tennessee were washed away. Antioch, Tennessee, were washed away. That over Stone river moved five feet. Trestles at New Haven are in danger. Seventeen guerrillas under Hughes en-tered Hodgesville, but left without doing

any damage. San Francisco, March 6 .- The steamship be a postponement of the confederation scheme for an indefinite period. The leg-islative Union of the Canadas will probably Pacific has just arrived from Oregon and British Columbia, bringing \$87,000 in gold. The winter weather still lays an embargo on mining operations.

NEW YORK, March 6 .- The stock, gold and petroleum boards adjourned till to-mor-row, on account of the celebration to-day. Gold closed at 198%. CONGRESSIONAL.

WASHINGTON, March 6. SENATE.

The Senate met at noon, Vice President Johnson in the chair. The Secretary read the journal of Satur-

On motion of Mr. Morgan, it was ordered that a committee of two be appointed to wait on the President and inform him that a quorum had assembled and were ready to receive any communication he might be leased to make. Messrs. Morgan and Guthrie were appointed said committee.

Mr. Lane, of Kansas, offered a resolution

that mileage and compensation be paid to the gentlemen from Arkansas and Louisiana claiming seats in the Senate. Mr. Summer objected to its consideration at this time; so it lays over.

Mr. Trumbull gave an account of the proceedings of the two houses on the clause in the Army Appropriation bill prohibiting any part of the money being paid to the Illinois Central Railroad Company, but which was stricken out by the House in or-der to save the bill. He said that a joint resolution purestion to the said that a said that a resolution purporting to have passed both houses, providing that no money be paid to any land grant railroad, and providing for the Attorney General to bring a suit to test the legal question involved, was presented to the Senate, but which was not approved by the President. He (Trumbull) under-took to say that such a bill never passed the

Mr. Clark explained that a bill was passed for the relief of Josiah O. Armes, but the clerks enrolled, instead of this, the proposition to which the Senator alluded, so his friend Armes lost his bill.

Mr. Trumbull remarked that the matter ought to be inquired into.

Mr. Clark said it was better that the President be requested to return the bill.

Mr. Sumner thought the Senate ough not to act upon the matter, as they were in

Executive, not Legislative, session. Mr. Trumbull said it was proper to in-quire how the signatures of the Vice Presi-

lent and Speaker were obtained. Mr. Clark's suggestion was acquiesced in. Mr. Trumbull said he would not ask for committee until the bill was returned. Mr. Hendricks said he was satisfied that no blame could be attached to the enrolling clerks. It was extraordinary that no more mistakes occurred, considering the manner in which business is crowded through at

the close of Congress.

On motion of Mr. Wilson, a resolution was adopted requiring the sergeant-at-arms to remove from the Senate part of the Capitol the sale of spirituous liquors.

The Senate here took a recess. Mr. Morgan, when the Senate assembled again, reported that the committee appointed to wait on the President had performed that duty, and that he would send forthwith to the Senate several communications in writing. The President's private secretary (Mr. Nicolay) who had entered with these gentlemen, then announced that he had been directed by the President to deliver several messages in writing, whereupon the Senate went into Executive session. Among the nominations sent in were Hugh McCul-loch, to be Secretary of the Treasury, and the following officers for the recently established court in the State of New York Charles L. Benedict, Judge Benjamin, D. District Attorney, and A. F. Campbell, Marshal,

The above nominations were referred to appropriate committees, and will be acted to-morrow. The Senate then ad-

The Celebration in New York.

NEW YORK, March 6 .- The spirit of our people based upon our late victories for the celebration to-day, received a fresh impetus by the anneuncement of Sheridan's gallant exploit. All feel that the postponement from Saturday, both on account of the weather and the additional cause for rejoic-ing, was judicious and opportune. The weather to-day is fine. The city is enveloped in flags. On account of the postpone-ment, the Committee of Arrangements were enabled to enlarge their scale, and the programme was made to embrace many new features. One of the most imposing displays in the procession was that of the Singer Sewing Machine manufacturing company, with their six horse team splendidly decorated, drawing trucks, upon which are erected magnificent pavilions filled with young ladies operating the Singer machines in the manufacture of army clothing. On the sides of the pavilions was inscribed, "We clothe the Union army while Grant is dressing the rebels." They were escorted by a full band and 1,000 men, em-

ployees of the company.

The procession was of great length The military display was fine and the firemen made an excellent appearance. Other portions of the parade, including veterans in carriages, excited much interest. The procession was about three hours in passing given point. The meeting in Union Square was largely attended. The crowd in the streets was probably the greatest ev-er seen in New York.
